DRAYAGE TRUCK REGISTRY (DTR)

DTR registration can be completed online via our website or by mail.

To register online:

- Follow the "Register Your Truck" link on our website. www.arb.ca.gov/drayagetruck

To register by mail:

- Download an application from our website or contact us for one via mail.
- Complete and mail the application.

Compliance labels:
Labels are NOT mandatory. We are providing **FREE** compliance labels for trucks to aid in the identification of compliant trucks by ports and rail yards. Compliance labels can be requested by checking a box on the DTR application.

WHAT ARE THE PENALTIES FOR NON-COMPLIANCE?

The owner or operator of the vehicle can be subject to the following:

- A minimum penalty of $300
- Suspension of vehicle registration
- Possible criminal penalties as specified in the Health and Safety Code.

REGULATION TEXT

The text of the regulation can be obtained through our website.

California Environmental Protection Agency
Air Resources Board

BACKGROUND

In 2007, the California Air Resources Board (ARB) passed a regulation to reduce emissions from drayage trucks operating at California's ports and intermodal rail yards. The regulation applies to all ports and intermodal rail yards in California – see website for complete list.

Note: The ports of L.A. and Long Beach have stricter requirements for trucks entering their facilities.

A drayage truck is:

- Class 8 (GVWR > 33,000lbs.)
- Diesel-Fueled
- On-Road

Certain trucks are exempt from this regulation. They include:

- Dedicated-use vehicles
- Emergency vehicles
- Military tactical support
- Yard trucks

Please visit our website for further information on exempted trucks. Note: All exempted trucks will be subject to the statewide bus and truck regulation.

WHAT DOES THE LAW REQUIRE?

Owners and operators of drayage trucks are required to do the following:

By September 30, 2009:

- Register trucks in the statewide Drayage Truck Registry (DTR). Registration is FREE.

Starting October 2009:

- Operators of non-compliant trucks must give the following information to enforcement personnel upon request.

  Motor Carrier Information:
  - Business name & address
  - Contact name & phone number
  - Bill of lading or tracking number

  Drayage Truck Information:
  - Entry date and time
  - Truck owners name
  - Drivers name & license number
  - License plate number & state

Starting 2010:

- Drayage trucks must meet engine model year emission requirements (see table).

- Ensure all emission control technologies are working properly.

ENGINE MODEL YEAR EMISSION REQUIREMENTS

Truck Engine Model Year	Emission Requirement Schedule
1993 and older	Prohibited starting Jan. 1, 2010
1994	Starting Jan. 1, 2010, Reduce PM emissions by 85% (e.g. install a DPF[1]) And Starting Jan. 1, 2014, meet 2007 engine emission standards
1995	
1996	
1997	
1998	
1999	
2000	
2001	
2002	
2003	
2004	Starting Jan. 1, 2012, Reduce PM emissions by 85% (e.g. install a DPF) And Starting Jan. 1, 2014, meet 2007 engine emission standards
2005	Starting Jan. 1, 2013, Reduce PM emissions by 85% (e.g. install a DPF) And Starting Jan. 1, 2014, meet 2007 engine emission standards
2006	
2007 and Newer	Fully Compliant
