Arnold Schwarzenegger
Governor

September 16, 2004

To Interested Parties:

On August 4, 2004, staff of the California Air Resources Board (ARB) held a stakeholder meeting to discuss ARB's composite wood product survey and the development of a composite wood product air toxics control measure (ATCM). At the meeting, regulatory concepts were presented, as well as, the need for an effective enforcement program.

To follow-up our August meeting, I would like to invite your participation in another stakeholder meeting to continue our discussions.

The agenda for the meeting is attached. Staff will provide a brief introduction to the development of the needs assessment and initial concepts for an enforcement framework for our future proposed regulation.

We have scheduled the meeting for:

Date:	October 5, 2004
Time:	9:00 AM – 11:00 AM
Location:	Cal/EPA Headquarters Building Air Resources Board Seventh Floor , Room 710 1001 I Street Sacramento, California 95814

For interested parties unable to attend the meeting in person, we will be offering the option to teleconference. To participate, please call USA Toll Free **(888) 625-1617**, and provide the following numeric passcode: **13846**. We look forward to your participation. If you have any questions regarding this meeting, please contact Mr. Robert Krieger, Staff Air Pollution Specialist, Substance Evaluation Section, at (916) 327-5615.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Website: http://www.arb.ca.gov.
