

PM10 Concentrations in Boyle Heights 3/01-10/01

Site	Maximum	Average	# of Days above Standard
Hollenbeck	78	44	5 out of 25
Science Center	79	44	6 out of 25
Soto Street	93	59	18 out of 25
Burbank	79	41	5 out of 25
Downtown LA	81	44	7 out of 25

* This was a matched day analysis. Units are ug/m3

** During the March 2001 to October 2001 period, average PM10 levels at the Hollenbeck Middle School and the Science Center were similar to the Downtown Los Angeles and Burbank sites. Soto Street PM10 levels and frequency of exceedances were much higher during this time period than the Hollenbeck and Science Center sites and the two long-term sites.
