SUPPLEMENTAL ENVIRONMENTAL PROJECT (SEP) DEVICE MANUFACTURERS MINIMUM PARTICIPATION REQUIREMENTS

To participate in the Supplemental Environmental Project, device manufacturers are required to:

- Have representation in California
- Intend to verify the retrofit device (if system not yet verified)
- Submit quotation and information on the retrofit device
- Data log vehicle and share temperature profile with ARB before installation
- Provide proposals
- Get the design and the location of retrofit device approved by the fleet and ARB prior to installation
- Obtain Experimental Permit (if required)
- Order and install ARB data logger with no additional cost of installation
- follow invoicing instructions posted on our website
- Provide one year supply of additive (if applicable)
- Provide one year service/maintenance and warranty
- Provide data logging information to ARB upon request
- Provide technical support within 24hrs of an incident
- Notify ARB of the purpose of site visits to any retrofitted vehicle in the program
- Abide by section 2707 of the verification rule
- Inform/train operators of retrofitted equipment of the usage of their device

(Date: 8/31/2009)

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website:
