Roster of Legislators	49

Introduction

The Air Resources Board (ARB) is a department of the California Environmental Protection Agency (Cal/EPA). ARB, in partnership with local air districts, oversees all air pollution control efforts to attain and maintain health-based air quality standards in California.

The ARB Legislative Office serves as the principal resource on air quality-related issues for Cal/EPA, the Governor's Office, and the Legislature. As the Administration's key air quality legislative staff, ARB's Legislative Office serves as the conduit for transmission of technical expertise, while at the same time providing a policy context with which to view technical issues.

This summary contains brief descriptions of the legislation tracked by ARB's Legislative Office during the first year of the 2003-2004 Legislative Session. Of more than 2,800 active bills in the Legislature this year, 89 were tracked by ARB's legislative staff. Twenty-five of those bills were Chaptered. They addressed a wide array of air quality issues including Central Valley Air Quality, Environmental Justice, Energy, Smog Check, Air Toxics, and more. Bills are listed in numerical order and are identified as 2-year, Chaptered, Vetoed, Dead, or N/A (Chaptered bills no longer related to air pollution).

In addition to regular session bills, 6 Extraordinary Session bills were followed. This year's Extraordinary Session was initiated to help balance the states budget. Of the 6 bills tracked, only 2 were Chaptered.

ACRONYMS

AB	Assembly Bill
AJR	Assembly Joint Resolution
APCD	Air Pollution Control District
AQMD	Air Quality Management District
ARB	Air Resources Board
ARC	Assembly Concurrent Resolution
BAAQMD	Bay Area Air Quality Management District
BACT	Best Available Control Technology
B&FR	Senate Budget and Fiscal Review Committee
Cal/EPA	California Environmental Protection Agency
CDFA	California Department of Food and Agriculture
CEC	California Energy Commission
CEQA	California Environmental Quality Act
CPUC	California Public Utilities Commission
DG	Distributed Generation
DGS	Department of General Services
DMV	Department of Motor Vehicles
DOT	Department of Transportation
DTSC	Department of Toxic Substances Control Board
DUI	Driving Under the Influence
EIR	Environmental Impact Report
ERC	Emission Reduction Credit
HOV	High Occupancy Vehicle
ISD	In-Station Diagnostics
N/A	Bills that were amended and chaptered, but no longer relate to air quality.
PM	Particulate Matter
SB	Senate Bill
SCAQMD	South Coast Air Quality Management District
SFWTA	San Francisco Water Transit Authority
STAR	Standardized Testing and Reporting Program
SJVUAPCD	San Joaquin Valley Unified Air Pollution Control District
SUV	Sport Utility Vehicle
U.S. DOE	United States Department of Energy
U.S. EPA	United States Environmental Protection Agency
ZEV	Zero Emission Vehicle

BILLS BY SUBJECT

ADMINISTRATION

AB 79	Dutra	State Agency Report Exemptions	2-year
AB 538	Calderon	State Environmental Goals and Policy Report	2-year
AB 556	Strickland	State Board and Commission Salaries	2-year
AB 901	Jackson	Fuel-Efficient State Vehicles	N/A
SB 311	Sher	Regulation Peer Review	2-year
SB 552	Burton	State Vehicle Fleet Purchases	Chapter 737
SB 568	Sher	External Scientific Peer Reviews	2-year

AGRICULTURAL OPERATIONS AND AGRICULTURAL WASTE

AB 291	Aghazarian	Agricultural Research Tax Credit	2-year
AB 1317	Parra	Biomass-to-Energy Incentive Program	2-year

ASSEMBLY BILLS

-
- AB 79 Dutra State Agency Report Exemptions 2-year
Excuses state agencies from most mandated reporting requirements until January 1, 2008. Urgency—takes effect immediately following the Governor’s signature.
- AB 114 Nakano HOV Lanes Use by Hybrid Vehicles 2-year
Authorizes a hybrid vehicle to be operated in an exclusive or preferential use lane (HOV lane), regardless of the number of occupants in the vehicle, unless specifically prohibited by a traffic control device.
- AB 151 Vargas Importation of Electrical Energy 2-year
Imposes an electrical energy surcharge on electricity generated in Mexico and imported into California, if the powerplant does not have ARB-defined BACT. The surcharge would be on a per kilowatt basis and the money collected would be used to mitigate the powerplant’s emissions in border air districts.
- AB 170 Reyes San Joaquin Valley Local Planning Chapter 472
Requires each city and county within the jurisdiction of the SJVUAPCD to amend the appropriate elements of its general plan to include strategies to improve air quality.
- AB 198 Nation ZEV Tax Credit 2-year
Removes specific tax incentives related to acquisition and utilization of Large Sport Utility Vehicles (Large SUVs) for small businesses. Revenue from disallowing these incentives would be used to fund a credit for the purchase and use of qualified reduced-emission vehicles in the state.
- AB 204 Nation State Coastal Conservancy: Motor Vehicles 2-year
Authorizes the DMV until January 1, 2015, to collect a fee of up to \$4 upon vehicle registration or renewal from every motor vehicle registered in a participating county. Fees collected would be used to fund projects and grants in participating counties that prevent, reduce, remediate, or mitigate the adverse environmental impacts of motor vehicles or motor vehicle facilities.
- AB 219 Reyes Heavy-Duty Diesel Smoke and Smog Check 2-year
Deletes the smog check exemption for diesel-powered vehicles. Requires all heavy-duty diesel motor vehicles to be inspected for excessive smoke emissions annually. Also requires any vehicle used for agricultural or farming purposes, except as an implement of husbandry, to be registered in California and subject to the Smog Check Program.

AB 291 Aghazarian Agricultural Research Tax Credit 2-year

Provides a 25 percent tax credit for qualified agricultural environmental remediation expenditures.

AB 390 Montanez Hospital Backup Generators Testing Chapter 676

Requires a general acute care hospital to test their diesel backup generators monthly instead of the weekly testing currently required by the Department of Health Services (DHS).

AB 392 Montanez Environmental Justice Spot Bill 2-year

Intended as a placeholder for legislation coming out of the Assembly Select Committee on Environmental Justice (chaired by Assemblywoman Montanez).

AB 404 Garcia Imperial County APCD: Water Transfers 2-year

Allows local districts to charge a mitigation fee or require reasonable studies of the effects of water transfers from the Salton Sea. The bill also gives ARB responsibilities for deciding appeals to either the fee or study requirement.

AB 469 Samuelian District Permit System Spot Bill 2-year

Intended as a placeholder for potential air district related legislation, but subsequent language never materialized during the session.

AB 471 Simitian Cruise Ship Incineration 2-year

Prohibits cruise ships from conducting on-board waste incineration while operating within 20 miles of the California Coast, by January 1, 2004. Requires by January 1, 2006, cruise ships operating within 25 miles of the California coast to use only U.S. EPA approved diesel fuel.

AB 489 Oropeza Distributed Generation Spot Bill 2-year

Intended as a placeholder for issues related to flared gas and distributed generation, but subsequent language never materialized.

AB 538 Calderon State Environmental Goals and Policy Report 2-year

Intended as a placeholder for issues related to the existing State Environmental Goals and Policy Report, but subsequent language never materialized.

AB 556 Strickland State Board and Commission Salaries 2-year

Removes salaries for several state Board (including ARB) members for the next three fiscal years.

-
- AB 565 Cogdill Tax Incentive for Cleaner-Burning Fireplaces 2-year
Allows a tax credit in an amount equal to 25 percent of the amount paid to purchase and install an U.S. EPA-certified clean-burning fireplace or wood stove.
- AB 720 Matthews Clean Burning Solid Fuel Appliances 2-year
Prohibits local agencies or air districts from restricting the installation of U.S. EPA certified wood burning heaters, stoves or fireplaces and defines the conditions for which an episodic wood burning curtailment program could be implemented by a local agency or air district.
- AB 729 Leiber BAAQMD Spot Bill 2-year
Intended as a placeholder for BAAQMD-related legislation, but subsequent language never materialized during the session.
- AB 736 Hancock High-Performance Schools 2-year
States legislative intent to create incentives for school districts to design facilities that meet energy efficiency, conservation, cost-effectiveness and environmental standards.
- AB 740 Pavley Clean Air, Clean Water, and Coastal Protection 2-year
Proposes a \$2.9 billion general obligation bond for financing an air and water quality and coastal protection program for voter approval. Of the amount authorized, \$900 million would be available for various programs administered by ARB. Specifically, \$200 million would go to the Carl Moyer Program; \$100 million for the replacement of older school buses; \$100 million for projects that reduce pollution from agricultural sources; and \$500 million for projects that provide incentives for the early establishment of a hydrogen fueling infrastructure.
- AB 775 Parra Test and Repair Station Information Submittals 2-year
Extends the definition of “extensive marketing research” to include information provided by any statewide association of test and repair station owners.
- AB 788 Chavez Prohibition on Disinfectant Regulations 2-year
Extends from December 1, 2003, to January 1, 2005, the prohibition against ARB adopting regulations for disinfectants.
- AB 826 Jackson Perchlorate Contamination Prevention Act Chapter 608
Requires DTSC to adopt regulations, by December 31, 2005, specifying best management practices for managing perchlorate waste materials.

AB 844 Nation Replacement Tires Efficiency Program Chapter 645

Requires the CEC to develop a replacement tire efficiency program for replacement tires for passenger cars and light-duty trucks, including development of minimum energy efficiency standards, a rating system, and point of sale consumer information for replacement tires.

AB 848 Nation SUV Income Tax Deduction Repeal 2-year

Denies specific tax incentives related to acquisition and utilization of large sport utility vehicles in a trade or business.

AB 854 Koretz Dry Cleaning Operation Grant Program 2-year

Prohibits the use of perchloroethylene by dry cleaners after January 1, 2014. Sets a \$3 fee on the chemical that would fund a grant program managed by the ARB for dry cleaners' transition to nontoxic alternatives. See AB 998 (Lowenthal).

AB 901 Jackson Fuel-Efficient State Vehicles N/A

Originally, required the ARB to adopt regulations relating to the state vehicle fleet. Subsequently amended to deal with radioactive waste. See SB 552 (Burton).

AB 907 Pavley Environmental Education Test Requirements 2-year

States that the revised academic content standards, regarding environmental education content, is not required to be included in the STAR test program until its next revision.

AB 925 Richman Powerplant Permitting Requirements 2-year

Makes permanent the expedited powerplant provisions that were established during California's energy crisis. The bill removes the requirement that certain new powerplants either shut down or modify to higher efficiency configurations within three years. Makes permanent the ability of an applicant to pay a mitigation fee in lieu of obtaining emission offsets. The bill also extends the CEC's six-month siting process by deleting its sunset provision.

AB 927 Campbell Hydrogen Refueling Stations 2-year

Requires ARB along with DOT, PUC and CEC to adopt regulations that establish statewide guidelines for the production and licensing of hydrogen fuel cell refueling stations in the state.

AB 998 Lowenthal Dry Cleaning Alternatives Grant Program Chapter 821

Sets a \$3 fee on purchases of perchloroethylene to fund a grant program administered by the ARB that provides incentives for nontoxic alternatives. Similar to AB 854 (Koretz).

AB 1063 Firebaugh SCAQMD Emission Reductions 2-year

Authorizes the SCAQMD to assess a fee on ports, marine terminals, shipping companies and railroads, and adopt regulations that would require any motor vehicle, nonroad engine, or non-road vehicle that operates substantially in the South Coast to install retrofit controls to reduce emissions of air contaminants.

AB 1068 Liu Petroleum Underground Storage Tank Loan Program 2-year

Extends the sunset date on the petroleum underground storage tank loan program to January 1, 2011 and transfers the program from the Technology, Trade and Commerce Agency to the State Water Resources Control Board. The program allows applicants to apply for loans to repair faulty vapor recovery systems.

AB 1090 Longville SCAQMD Board Make-up: San Bernardino Chapter 686

Provides that the San Bernardino County Board of Supervisors representative on the SCAQMD does not have to be a resident of the district.

AB 1214 Firebaugh Stationary Fuel Cell Net Metering Chapter 661

Allows stationary fuel cells to sell excess power they produce to the electrical grid. The provisions of this bill sunset on January 1, 2006.

AB 1284 Leslie Distributed Generation Incentives N/A

Originally, this bill extended the date by which small DG sources can begin operation. As amended, the bill allows an exemption to electrical direct access contracts for a single industrial facility located in the authors district.

AB 1316 Parra Enhanced Smog Check in Coastal Districts 2-year

Requires ARB to conduct a study that evaluates the benefit to air quality resulting from requiring all AQMDs and APCDs located along the state's coastline between Los Angeles and the SF Bay Area to implement the Enhanced Vehicle Inspection and Maintenance Program with respect to state and federal ambient air quality standards.

AB 1317 Parra Biomass-to-Energy Incentive Program 2-year

Extends to January 1, 2009, the repeal date of the Biomass-to-Energy Incentive Grant Program which permits air districts to receive grants to provide incentives to facilities that convert qualified agricultural biomass to fuel. The program would be extended only if the multi-agency review panel submits its report to the Legislature on the results and effectiveness of the Agricultural Biomass-to-Energy Incentive Program by January 1, 2004.

AB 1390 Ridley-Thomas Fuel-Efficient Vehicle Tax Credit 2-year

Authorizes a credit beginning on or after January 1, 2003, and until January 1, 2008, in an amount equal to 20 percent, but not to exceed \$2,000, for the purchase of a fuel-efficient vehicle.

AB 1394 Levine Carl Moyer Program Eligibility 2-year

Expands the Carl Moyer Program to include projects that reduce emissions of PM. Requires ARB to evaluate the current program by July 1, 2004, to retire from service the oldest and heaviest-polluting on-road diesel vehicles to ensure that programs produce real, quantifiable, enforceable and surplus emission reductions. By January 1, 2005, ARB must revise the current grant criteria and guidelines, including cost-effectiveness, to incorporate projects that reduce PM emissions.

AB 1468 Pavley Testing of Asbestos Negative Air Machines 2-year

Requires every negative air machine to be leak tested on the site of any asbestos abatement project that requires removing more than 100 square feet of asbestos.

AB 1500 Diaz Petroleum Pollution Cleanup and Prevention 2-year

Enacts the Petroleum Pollution Cleanup and Prevention Act of 2003 which requires refineries to pay a one dollar per-barrel of crude oil fee for mitigation of water and air pollution caused by or exacerbated by petroleum production and use. A portion of the funds would go toward the Carl Moyer Program.

AB 1624 Benoit Smog Check Spot Bill 2-year

This is a spot bill that would limit the percent of vehicles in the enhanced Smog Check Program directed to test-only facilities.

AB 1630 Maddox Distributed Generation Spot Bill 2-year

Intended as a placeholder for potential DG legislation, but subsequent language never materialized during the session.

AB 1637 La Suer Air Pollution Penalties 2-year

Removes the provisions of Senate Bill 527 (Sher, Chapter 769, Statutes of 2001) granting ARB the ability to seek administrative penalties as an alternative to civil penalties for less serious violations of air pollution regulations.

AB 1672 Codgill Agricultural Burning ERCs 2-year

Intended as a placeholder for potential agricultural ERC related legislation, but subsequent language never materialized during the session.

AB 1685 Leno Self-Generation Incentive Program Eligibility Chapter 894

Extends the CPUC's Self-Generation Incentive Program by three years until 2008 and adds an emissions-based eligibility requirement for combustion self-generation projects. The bill also extends the eligibility date for initial start-up of "ultra-clean" emissions technologies by three years.

AJR 50 Pavley Fuel Cell Vehicles 2-year

Urges the state to commit to achieving a clean transportation future based on the rapid commercialization of hydrogen and fuel cell technologies. Requests the U.S. DOE to recognize California's progress and commitment to accelerating the commercialization of hydrogen and fuel cell vehicles and to ensure that appropriate federal funding be provided to support those activities in California.

ACR 75 Chan Tools for Schools (Indoor Air) in California Res. Chapter 70

Urges school districts to implement the federal Indoor Air Quality Tools for Schools Program.

AB 6x Oropeza Budget Reductions Dead

Reduces expenditures committed in the 2002 Budget Act for numerous state programs, including a reversion to the General Fund of \$2.06 million from the ARB.

AB 10x Oropeza Stationary Source Fees Chapter 1x

Authorizes the ARB to levy an emission-based fee on stationary sources of air pollution, including manufacturers of consumer products and paints, to partially recover air pollution reduction program costs related to those sources.

SENATE BILLS

SB 11	Cedillo	Additional SCAQMD Board Member	2-year
Increases to 13 the number of board members on the SCAQMD governing board and requires the additional member be appointed by the City of Los Angeles.			
SB 46	Alpert	Distributed Generation Spot Bill	2-year
Intended as a placeholder for potential DG legislation, but subsequent language never materialized during the session.			
SB 107	Bowen	Ultra-Clean Distributed Generation	2-year
Establishes until January 1, 2007, an incentive program for renewable and ultra-clean and low-emission distributed generation resources			
SB 207	Ackerman	Gasoline Vapor Emission Control	2-year
Amends existing law to ensure vapor recovery system failures identified by in-station diagnostics (ISD) at service stations are not treated as violations unless the defect or malfunction is not corrected within 21 days after detection.			
SB 277	Ducheny	Salton Sea Restoration Act	Chapter 611
Establishes the Salton Sea Restoration Fund and requires the fund to be administered by the Director of Fish and Game. The bill would require the money deposited in the fund to be expended, upon appropriation by the Legislature, for various purposes relating to the restoration of the Salton Sea, including environmental mitigation.			
SB 288	Sher	Protect California Air Act of 2003	Chapter 476
Enacts the “Protect California Air Act of 2003” which prohibits local air districts from revising their programs to be less stringent than those in place on December 30, 2002. In addition, the bill extends for five years—to January 1, 2010—motor vehicle fee authority for a SCAQMD clean fuels program.			
SB 311	Sher	Regulation Peer Review	2-year
Requires that an external scientific peer review of each draft risk assessment prepared by the office shall be conducted in a manner substantially equivalent to that required for a review of the scientific basis of any rule proposed for adoption by the Cal/EPA.			
SB 317	Kuehl	Salton Sea Ecosystem Restoration	Chapter 612
Requires the Secretary of Resources to undertake a study relating to the restoration of the Salton Sea ecosystem and the protection of wildlife dependent on that ecosystem.			

SB 352 Escutia Schoolsites Near Freeways Chapter 668

Prohibits the siting of a school within 500 feet of a freeway or busy roadway and brings closer scrutiny to the siting of schools near large agricultural operations or railyards, unless it can be determined that air quality at the proposed site poses no health risks to pupils or staff.

SB 380 McClintock HOV Lanes Effectiveness Study 2-year

Requests the University of California, on or before January 1, 2005, to conduct a study, in consultation with the DOT, to evaluate the effectiveness of HOV lanes .

SB 444 Vasconcellos Greenhouse Gasses 2-year

Declares Legislative intent to significantly reduce greenhouse gas emissions in the state to the extent practicable pursuant to the provisions of the Kyoto Accord.

SB 480 Kuehl SCAQMD Board Member for Santa Monica 2-year

Intended as a placeholder for legislation related to SCAQMD Board membership, but subsequent language never materialized during the session.

SB 502 Florez Dairy Farm Sanitation 2-year

Requires the secretary of CDFA to establish an incentive program to encourage dairy farm owners to improve air and water conditions on dairy farms.

SB 537 Romero Solid Waste Management Coordination N/A

Originally a placeholder addressing coordination of the state's waste management program with water and air programs. As amended, the bill deals with Los Angeles County Sanitation Districts.

SB 552 Burton State Vehicle Fleet Purchases Chapter 737

Requires the DGS, on or before January 1, 2005, in consultation with the CEC and the ARB, to develop and adopt specifications and standards for all passenger cars and light-duty trucks that are purchased or leased on behalf of, or by, state offices, agencies, and departments.

SB 568 Sher External Scientific Peer Reviews 2-year

Prohibits any person with a financial interest that is related to the subject matter of the review from serving as an external scientific peer reviewer for a peer review initiated on or after January 1, 2004.

SB 703 Florez Agricultural Electrical Rate Structures 2-year

Requires the CPUC to set incentive rates for water irrigation pumps so that it is cost effective to replace diesel pumps with electric motors.

SB 704 Florez Agricultural Biomass Incentives Chapter 480

Requires the CEC to allocate six million dollars for the 2003 – 2004 fiscal year to provide incentives to qualified biomass facilities within California to increase their utilization of agricultural waste material.

SB 705 Florez Agricultural Burning Ban Chapter 481

Prohibits the burning of agricultural waste in San Joaquin Valley by June 1, 2010. Allows the air district to delay the phase-out if there are no feasible alternatives for disposal, there is no long-term funding for biomass facilities in the San Joaquin Valley or development of alternatives, and burning will not cause or contribute to a violation of federal ambient air quality standards.

SB 706 Florez Clean Burning Fireplaces, Heaters, and Stoves 2-year

Requires the ARB to adopt regulations that establish new standards for clean-burning wood fireplaces, wood heaters, wood stoves, and for masonry heaters. Requires the council of the State Building Standards Commission to develop a prohibition on the installation of any wood stove or heater that fails to meet the defined standard.

SB 707 Florez Dairy Buffer Zones 2-year

Requires consideration of buffer zones as part of CEQA an EIR for a new or expanding dairy.

SB 708 Florez Smoking Vehicle Checkpoints Chapter 482

Authorizes counties to establish smoking vehicle checkpoints in combination with DUI checkpoints. Allows a low-income owner of a smoking vehicle who was issued a “notice to correct” to participate in the state’s vehicle repair assistance program.

SB 709 Florez SJVUAPCD Authorities Chapter 483

Grants the SJVUAPCD similar authorities now held by the other highly polluted air districts in the state, including authority to collect \$1 per registered vehicle surcharge. The bill also requires the District to establish an expedited permit review program and establish a small business assistance office. Finally, the bill codifies the District’s existing structure and governing board.

SB 807 Ashburn Agricultural Permit Exemption Removal 2-year

Removes the agricultural permit exemption for federally defined major sources only.

*Bills chaptered with a signing message

October 10, 2003

To the Members of the California Legislature:

I am signing Assembly Bill 390, which requires that specified health facilities test their diesel backup generator in accordance with the most recent standard set by the Joint Commission on the Accreditation of Healthcare Organizations, which would reduce the current testing requirement from weekly or every other week depending on facility type to monthly. These provisions would be repealed as of January 1, 2009. I am directing Department of Health Services to absorb the cost of this bill within existing resources.

Sincerely,

GRAY DAVIS

October 12, 2003

To the Members of the California Legislature:

I am signing Assembly Bill 998, which establishes a Nontoxic Dry Cleaning Incentive Trust Fund to encourage California dry cleaners to switch from the dry cleaning solvent perchloroethylene (PCE) to less toxic alternatives. Fees on each gallon of PCE purchased would fund a demonstration project and provide incentive grants to dry cleaners to switch to less toxic alternatives.

AB 998 provides the financial incentives needed for dry cleaners to use the cleanest possible alternatives to PCE, a known carcinogen. There are two known non-toxic and non-smog forming alternative technologies available to the dry cleaning industry: wet cleaning with water and carbon dioxide cleaning. As an example, Hanger Cleaners in San Diego uses carbon dioxide cleaning and reports positive customer response and a cleaner environment for employees and the surrounding community. I am proud to join eight other states that have passed similar laws to promote alternatives to PCE.

Although I am signing this bill, I am greatly troubled by an increasing California pollution problem caused by emergent contaminants fouling our water and air, such as PCE, chrome 6, MTBE, radiation, PBDE, and perchlorate. Therefore, I challenge the author and stakeholders to continue the leadership shown by this measure and lead the way next year to devise an innovative solution to address the cross-media pollution problems caused by PCE and the other emergent contaminants.

I am signing this bill with the understanding that the Air Resources Board, Office of Environmental Health Hazard Assessment and Department of Health Services implement this measure within existing staff resources.

Sincerely,

GRAY DAVIS

October 12, 2003

To the Members of the California Legislature:

I am signing Assembly bill 1685, which reauthorizes the California Public Utilities Commission's Self-Generation Incentive Program until December 31, 2003, providing the solar and the distributed generation (DG) industry greater financial certainty and Californians greater energy independence. This program provides the largest source of renewable energy project funding in the nation with \$125 per year for solar, wind, fuel cell, and co-generation projects.

AB 1685 codifies the Self-Generation Incentives Program, continuing the development of new, cleaner electric power. It is important that investors who finance new projects leading the state to energy independence have assurance that this program will continue to support them. However, I do not believe this codification abrogates the PUC's underlying authority to establish or continue similar incentive programs in the future.

I am concerned by the disqualification of "waste gas" fired internal combustion engines from the program. These sources can have lower emissions than the alternative of directly flaring the waste gas to the air. I understand the author has agreed to introduce legislation next year which addresses this issue and ensures that not only the producers of the cleanest and most efficient gas distributed generation projects continue to participate in the program, but that those who reduce emissions by generating power using "waste" gas also qualify for this program.

I would also encourage the author to include a mechanism to certify compliance with the efficiency standards to ensure that qualifying clean and efficient distributed generation projects can establish eligibility for the program.

For these reasons, I am signing this measure.

Sincerely,

Gray Davis

October 10, 2003

To the Members of the California Senate:

I am signing SB 552 because it provides a clear demonstration that the state is willing to lead by example to reduce green house gas emissions and reduce California's petroleum dependence. Although this bill only applies to vehicles purchased or leased by state agencies, I urge the Legislature to voluntarily comply with its provisions.

This bill provides tangible evidence of the state's commitment to the nation-leading precedent established by Assembly Member Pavley's green house gas bill, AB 1493, I signed into law last year. The enactment of this bill also represents one of the initial actions to fulfill the commitment I recently made to Governor Locke of Washington and Governor Kulongoski of Oregon in seeking a border-to-border solution to the problem of global warming. In addition, my Administration has implemented new strict vehicle purchasing policies to ensure that state agencies are allowed to purchase only those vehicles meeting the state's cleanest emission standards.

However, given the fiscal crisis the state is experiencing and the resulting reduction of staff and resources, I am concerned that the Department of General Services and state agencies will not be able to implement all of the provisions of the bill as quickly as intended. Without a sufficient alternative fuel infrastructure and a comprehensive statewide fleet database--both of which require a significant financial commitment from the Legislature--progress to meet the admirable goals of this bill will remain hampered. I encourage the Legislature to work with the Department of General Services and other appropriate entities to determine how the state will implement this measure given our limited resources. It is my understanding that the author is willing to address the funding issues or reduce the scope of the data collection requirements for the Department of General Services in legislation next year.

Sincerely,

GRAY DAVIS

October 10, 2003

To the Members of the California Legislature:

I am signing Senate Bill 656, which requires the Air Resources Board (ARB) to adopt a list of available control measures that would reduce particulate matter (PM) emissions from new and existing stationary, mobile and area sources of pollution. The bill further requires the ARB and local air districts to adopt an implementation schedule for the listed control measures. The ARB is to prepare a report of the implementation outcome by January 1, 2009.

In signing this measure, I am also directing the Air Resources Board to implement the provisions of the bill within existing resources.

Sincerely,

GRAY DAVIS

September 22, 2003

To the Members of the California Legislature:

I am signing Senate Bill 704 that requires the Energy Commission to allocate \$6 million from the Renewable Resources Trust Fund (RRTF) to provide incentives for biomass facilities that increase the use of qualified agricultural biomass. The bill would also require that the incentives be dispersed within 90 days of the bill's effective date. SB 704 is double-joined to SB 705 (Florez) that, over time, prohibits the burning of agricultural waste in the San Joaquin Valley.

I am concerned about the timing of this incentive. As written, SB 704 funds the purchase of agricultural waste prior to the ban on open field burning rather than offsetting the cost of disposing of waste that will no longer be burned. Although I am signing this measure, I am directing the Energy Commission to work with the author on clean-up legislation that aligns the timing of the incentives with the proposed ban on burning and assures that any incentives provided produce energy and air quality benefits.

Sincerely,

GRAY DAVIS
