

**Innovative Technology Rulemaking (ITR)
Interim Medium- and Heavy-Duty Vehicle Hybrid Technology Emission Test
Procedures Work Group Meeting**

**May 31, 2016
10:00 a.m. – 11:30 Pacific Time
By Teleconference Only**

<p><u>Teleconference Information</u> DIAL-IN NUMBER: 888-989-9857 PASSCODE: 17670</p>
--

AGENDA

- 1) Introductions and Background
- 2) Potential Applicability and Definitions (*handout pages 1 - 2*)
- 3) Potential General Requirements (*handout pages 2 - 4*)
- 4) Potential Emission Test Protocols (*handout pages 5 – 11*)
 - a. PEMS Testing (applicable to heavy-duty hybrids only)
 - b. Chassis Dynamometer Testing
 - c. Post-Transmission Powertrain Vehicle Simulation (applicable to heavy-duty hybrids only)
- 5) Potential Evaporative Test Requirements (*handout pages 11 - 12*)
- 6) Potential All-Electric Range Determination Procedures (*handout page 12 - 13*)
- 7) Potential Data Collection and Quality Control Element (*handout page 13 – 14*)
- 8) Next Steps and Adjourn
