REGARDING CERTIFICATION REGULATIONS FOR 2003 AND LATER  
MODEL-YEAR INBOARD AND STERNDRIVE SPARK-IGNITION (SI)  
MARINE ENGINES

On July 26, 2001, the Air Resources Board amended the Spark-Ignition Marine Engine (SIME) standards and test procedures to be effective with the 2003 model-year (MY). Beginning with the 2003 MY, inboard and sterndrive SIME engines will be required to comply with the new standards and requirements. The regulations include provisions for emission testing, certification, corporate averaging, emission control and environmental labeling, and emission control warranty. In order to assist manufacturers in complying with these requirements, staff is conducting a public meeting to discuss issues related to the certification of inboard and sterndrive marine engines.
