TO: Off-Road Implementation Advisory Group (ORIAG) Members

SUBJECT: MEETING NOTICE

Thank you to all of the ORIAG members who attended our first meeting on May 12, 2008, and gave their constructive comments and invaluable input. The input on the demonstration of the draft of the Diesel Off-road On-line Reporting System (DOORS) was especially helpful and will greatly assist in its development. Air Resources Board (ARB) staff would appreciate further comments once the prototype is posted, as well as on any other topics that were discussed at that meeting.

The next ORIAG meeting will be held June 25, 2008, at the location listed below:

California Air Resources Board
Annex 4 Auditorium / Conference Room
9530 Telstar Avenue
El Monte, California 91731

From 9:00 a.m. to 12:00 p.m. in the Auditorium and the conference room adjoining the auditorium there will be subcommittee kick-off meetings for ORIAG members only (please see attached agenda). The subcommittees include: Safety, Outreach, Diesel Off-road On-line Reporting System (DOORS), Diesel Emission Control Systems (DECS), and Fleets. From 1:00 p.m. to 4:00 p.m. in the Auditorium there will be a general meeting open to the public. At the meeting, ARB staff will brief members on enforcement of the off-road diesel regulation and the current status of demonstration programs.

Information about meetings, such as agendas, minutes from previous meetings, and meeting materials can be found at <http://www.arb.ca.gov/msprog/ordiesel/ORIAG/ORIAG.htm>. A draft agenda for the meeting is attached. The meeting will be webcast; details regarding how to access the webcast are on the attached agenda. Also, there will be the ability to e-mail questions or input during the meeting and phone them in during the public comment period of the meeting. The e-mail address, phone number, and pass code are on the attached agenda.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.

Please remember that some conference rooms have limited space. If you are an ORIAG member and plan to invite anyone else, you may need to limit this to one additional attendee. Also, if you are a member and bring additional representatives, they will need to reserve their comments until the public comment period at the end of the meeting.

Should you have any questions regarding ORIAG, please contact Beth White at eiwhite@arb.ca.gov or at 916-324-1704. If you would like to suggest any other topics be added to the agenda, please let Beth know by June 11, 2008.

Sincerely,

Erik White, Chief
Heavy-Duty Diesel In-Use Strategies Branch
