Mr. Jared Blumenfeld
Regional Administrator
Region 9
U.S. Environmental Protection Agency
75 Hawthorne Street
San Francisco, California 94105

Dear Mr. Blumenfeld:

The Air Resources Board (ARB) is submitting to the U.S. Environmental Protection Agency (U.S. EPA) the *2014 Update to the Air Quality Maintenance Plan and Redesignation Request for the Town of Mammoth Lakes* (Maintenance Plan/Redesignation Request). The Great Basin Unified Air Pollution Control District (District) adopted the Maintenance Plan/Redesignation Request on May 5, 2014, as a revision to the California State Implementation Plan (SIP), and transmitted it to ARB on May 22, 2014.

During the District's 30-day notice, the transportation conformity budgets were updated to encompass the entire non-attainment area. To satisfy the public noticing requirement, ARB noticed the Maintenance Plan/Redesignation Request for public comment 30 days prior to its September 18, 2014, public hearing to approve the Maintenance Plan/Redesignation Request. ARB received no public comments on the Maintenance Plan/Redesignation Request either prior to or during the public hearing.

This submittal includes two paper copies and one electronic media copy of the SIP revision materials identified as follows:

- I. The District transmittal package, including public notice, public hearing, and District Board adoption documentation.
- II. ARB public notice and transcript of ARB's public meeting.
- III. ARB Board Resolution 14-27 approving the Maintenance Plan/Redesignation Request as a proposed revision to California's State Implementation Plan.
- IV. SIP Submittal Checklist.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.

California Environmental Protection Agency
