

Statewide Portable Equipment Registration Program
FORM 3-D - Application for Portable Unconfined Abrasive Blasting Registration*

(Auto-fill format. Press "Tab" or up/down arrows to enter information. Additional form information is provided on the reverse side.)

PERP Registration forms are available at <http://www.arb.ca.gov/portable/portable.htm>.

1. Company Name:			
2. Equipment Manufacturer:		3. Model:	
4. Nozzle Diameter (Indicate One): inches or gauge		5. Serial Number:	
Operating Pressure: psi		6. Company Unit ID (Optional):	
7. Abrasives Used - All abrasives must be California Air Resources Board certified at the time of purchase (for DRY blasting only)			
Abrasive Type	Abrasive Name	Manufacturer	CARB Executive Order #
<input type="checkbox"/> Aluminum Oxide			
<input type="checkbox"/> Mineral Slag			
<input type="checkbox"/> Black Beauty			
<input type="checkbox"/> Plastic Shot			
<input type="checkbox"/> Garnet			
<input type="checkbox"/> Silicon Carbide			
<input type="checkbox"/> Glass Bead			
<input type="checkbox"/> Steel Shot			exempt
<input type="checkbox"/> Steel Grit			exempt
<input type="checkbox"/> Sand			
<input type="checkbox"/> Walnut Shell			
<input type="checkbox"/> Other			
8. Process Information Is wet blasting used 100% of the time: <input type="checkbox"/> Yes <input type="checkbox"/> No			
Other Abrasive Blasting Methods Used (describe):			
9. Home District Designation (Required):			
10. Do you intend to use this unit in State Territorial Waters (STW)? <input type="checkbox"/> STW only <input type="checkbox"/> Onshore <input type="checkbox"/> Both			
<i>*Please note: This form is used to register abrasive blasting equipment units. If you wish to register the engine that drives a compressor used to power the unit, please complete Form 2.</i>			

Form 3-D Instructions

1. *Company Name* - Legal name of entity, business, organization, agency or private individual that operates equipment.
2. *Manufacturer* - For example: Simons, Rexnord, or your company name if built in-house.
3. *Model* - May be a series of numbers or letters or combinations of numbers and letters. For example: 3612.
4. *Nozzle Diameter and Pressure* - Provide the nozzle diameter or nozzle gauge and the operating pressure at the nozzle.
5. *Serial Number* - A unique, unit specific number, usually on the equipment nameplate. The serial number is necessary to ensure that each piece of registered equipment can be uniquely identified and matched to its respective registration certificate number.
6. *Company Unit ID (Optional)* - For your reference. Enter your company unit or equipment number.
7. *Indication of Abrasives Used* - List all the abrasives used, including abrasive type, name, and manufacturer, and California Air Resources Board (CARB) executive order number. Note: All abrasives must be California Air Resources Board certified at the time of purchase for DRY blasting operations only.
8. *Process Information:*
 - Wet Blasting* – Indicate if wet blasting is used 100% of the time.
 - Other Abrasive Blasting Methods Used* - If other blasting methods are used, they must be listed (for example, vacuum blasting).
9. *Home District Designation (Required)* - Indicate the one air pollution control or air quality management district in which this unit is most commonly operated. This district will be designated as your “home” district. It is required that a home district be designated.
10. *State Territorial Waters* – Please check the appropriate box indicating whether or not you are intending to operate your equipment unit in State Territorial Waters.
