

## UPDATED INFORMATIVE DIGEST

**Section Affected:** Amendment to Title 17, California Code of Regulations (CCR), section 60201, pursuant to section 39608 of the Health and Safety Code (H&SC).

**Summary:** At a public hearing on November 18, 1999, the staff proposed that the portion of Sonoma County located in the North Coast Air Basin be redesignated from attainment to nonattainment for the State ozone standard in CCR, Title 17, section 60201. In addition, staff proposed a nonsubstantive change to update the reference to nonattainment-transitional areas in section 60201. The staff proposal was the same as that described in the Initial Statement of Reasons for Proposed Rulemaking (Staff Report) released on October 1, 1999. At the hearing, the California Air Resources Board adopted the amendment of the area designation regulations as proposed by the staff.
