#### BACKGROUND

Staff has identified two policy decisions to be considered by the Board. They are:

- The appropriate emission standards for new 2007 and later model-year urban bus engines, and the potential amendment of ARB's transit fleet rule to require the use of alternative fuel transit buses statewide; and
- The need for Board adoption of a fleet rule requiring the use of alternative fuel buses by the six "diesel path" transit agencies within SCAQMD.

The second policy decision, which affects transit agencies in the SCAQMD only, will be considered by the Board at the September 15-16, 2005 hearing. The first policy decision affects transit agencies throughout the state, and will be considered by the Board at the October 20-21, 2005 hearing.

### **THE CONTINUED HEARING**

The continued hearing will be conducted as described in the original notice, except that written submissions must be addressed to and received by the Clerk of the Board as described below.
