Alternative Diesel Fuels Regulation

Reporting Summary – 2017

The Alternative Diesel Fuels (ADF) regulation, which became effective January 1, 2016, requires regulated parties to report produced, imported, and blended amounts of all biodiesel blendstock and the biodiesel blends produced. The table below is a summary of ADF reporting in 2017 and shows the volumes of B100/B99 blendstock imported and produced as well as the percentages of B100/B99 blendstock blended to produce final blends of B20 and below.

Alternative Diesel Fuels Reporting Summary 2017

	Total B100/B99 Volume Imported/Produced	Percentage of B100/B99 blended to produce B5	Percentage of B100/B99 blended to produce B10	Percentage of B100/B99 blended to produce B15	Percentage of B100/B99 blended to produce B20
2017 Q1	39,809,120	73.6%	4.4%	10.7%	11.3%
2017 Q2	41,475,779	65.9%	1.9%	6.5%	25.7%
2017 Q3	49,074,881	63.3%	2.7%	6.9%	27.0%
2017 Q4	48,956,739	72.0%	5.8%	6.0%	16.2%
Total	179,316,519	68.4%	3.6%	7.4%	20.6%
