

State of California  
AIR RESOURCES BOARD

Executive Order G-95-095

Relating to the Open Burning of Nonindustrial Wood Waste  
at Designated Sites

WHEREAS, Section 41800 of the Health and Safety Code prohibits the use of open outdoor fires for the purpose of disposal or burning of petroleum wastes, demolition debris, tires, tar, trees, wood waste, or other combustible or flammable solid or liquid waste, or for metal salvage or burning of motor vehicle bodies;

WHEREAS, Section 41804.5 of the Health and Safety Code allows the Air Resources Board to authorize, subject to the limitations in Section 41803, the use of open outdoor fires by a city or county at a designated site to dispose of nonindustrial wood waste at disposal sites located above 1,500 feet elevation mean sea level anywhere in the State, or any elevation in the area designated as the North Coast Air Basin by the State Board pursuant to Section 39606, provided that the burning shall occur only on permissive agricultural burn days;

WHEREAS, Section 41803 states that no authorization, however, under Section 41804.5 shall be granted after such date as the Air Resources Board may determine, based upon a finding, that an alternative method of disposal has been developed which is technologically and economically feasible;

WHEREAS, the Northern Sierra Air Quality Management District has submitted an application to the Air Resources Board for approval to burn nonindustrial wood waste at a designated site;

WHEREAS, the staff of the Air Resources Board has reviewed the application and found that the District has supplied all information required by the State Board and that the submitted proposal is in compliance with State law;

WHEREAS, such fires will not prevent the attainment or maintenance of ambient air quality standards if confined to the period when such standards are not expected to be exceeded; and

WHEREAS, the ambient air quality standards are not expected to be exceeded under the conditions set forth in this Order.

NOW, THEREFORE, BE IT ORDERED that Executive Order G-535 is superseded by this order.

IT IS FURTHER ORDERED, that, subject to the following conditions, the Executive Officer hereby approves the Northern Sierra Air Quality Management District's application to burn nonindustrial wood waste at the following designated site: Chester Landfill.

1. Burning is to be done only on permissive burn days.

2. A maximum of 2 burns will be allowed each fiscal year, and they shall be between November 1 and April 15.
3. The burning shall not create a nuisance.
4. Permits to burn must be obtained from the local fire protection agency and from the Northern Sierra Air Quality Management District.
5. Prior to and during each burn, inspections shall be made by the Northern Sierra Air Quality Management District at the site to assure that only nonindustrial wood waste is burned, the pile is relatively free of soil, and the material is stacked in such a way so as to enhance burning and promote a hot fire.
6. This Executive Order shall terminate upon a determination by the Air Resources Board that an alternative method of disposal has been developed which is technologically and economically feasible.

Executed this 17<sup>TH</sup> day of OCTOBER 1995 at Sacramento, California.

James J. Morgester, Chief  
Compliance Division
