Public Workshop Regarding Proposed Revisions to the Unihose Gasoline Dispenser Requirement

Dear Sir or Madam:

The California Air Resources Board (ARB) staff is holding a workshop to solicit public comments on modifications to the unihose dispenser requirements for Phase II vapor recovery systems at gasoline dispensing facilities (service stations). The time and place for the workshop are as follows:

DATE: Wednesday, June 16, 2004
TIME: 10:00 a.m. to 12:00 p.m.
PLACE: California Air Resources Board
Monitoring and Laboratory Division
1927 13th Street, 1st Floor Conference Room
Sacramento, CA 95814

Arrangements will be made to provide teleconferencing and/or a webcast for this workshop. The teleconference/webcast information will be provided on the workshop agenda, which will be posted approximately one week prior to the workshop on our vapor recovery web page at www.arb.ca.gov/vapor/vapor.htm.

The workshop will discuss the proposed revisions to section 4.11 of CP-201, Certification Procedure for Vapor Recovery Systems at Gasoline Dispensing Facilities. These amendments are scheduled to be considered at the July 22, 2004, meeting of the Air Resources Board. The board hearing notice and staff report will be available on June 4, 2004, which is the start of the 45-day comment period. The June 16, 2004, workshop will include a presentation by staff during the open public comment period. Information regarding this rulemaking item can be accessed at www.arb.ca.gov/vapor/vapor.htm.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Website: <http://www.arb.ca.gov>.

Meeting locations are accessible to persons with disabilities. If you have a disability-related accommodation need, please go to <http://www.arb.ca.gov/html/ada/ada.htm> for assistance or contact the ADA Coordinator at (916) 323-4916. If you are a person who needs assistance in a language other than English, please go to <http://inside.arb.ca.gov/as/eeo/languageaccess.htm> or contact the Bilingual Coordinator at (916) 324-5049.

If you cannot attend and would like to provide comments, or if you have questions regarding this workshop, please contact Cindy Castronovo at (916) 322-8957, or via e-mail at ccastron@arb.ca.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "William V. Loscutoff". The signature is written in a cursive style with a large, prominent "W" and "L".

William V. Loscutoff, Chief
Monitoring and Laboratory Division

**UNIHOSE REQUIREMENT
(Proposed amendment in strike-out)**

CP-201 Section 4.11 Unihose MPD Configuration

There shall be only one hose and nozzle for dispensing gasoline on each side of a multi-product dispenser (MPD). This shall not apply to facilities installed prior to April 1, 2003 unless the facility replaces more than 50 percent of the dispensers ~~or makes a modification, other than the installation of required sensors, that modifies over 50 percent of the vapor piping in the dispensers.~~ Facility modifications that meet the definition of "major modification" for a Phase II system in D-200 trigger the unihose requirement as the facility is considered a "new installation". Exception: dispensers which must be replaced due to damage resulting from an accident or vandalism may be replaced with the previously installed type of dispenser.
