Edmund G. Brown Jr.  
Governor

August 6, 2012

Mr. Brad Baker  
Executive Vice President  
Husky Corporation  
2325 Husky Way  
Pacific, Missouri 63069

Dear Mr. Baker:

In a letter dated July 31, 2012, you requested Air Resources Board (ARB) amend the Phase I enhanced vapor recovery (EVR) Executive Orders to allow a white background as an alternative color to the Husky Model 5885 Pressure/Vacuum Vent Valve (P/V Valve) labels. The Phase I EVR Executive Orders (EO) currently requires a yellow or gold-colored label. Similarly, the aboveground storage tanks EOs that are subject to standing loss control also require a yellow or gold-colored label

ARB staff determined that a white background for the Model 5885 P/V Valve label will not affect the performance of the Phase I EVR Systems. The black lettering and white background should provide similar contrast as the yellow/gold colored background so air district inspectors can read the label from ground level. ARB staff will incorporate this alternative background color for the Model 5885 P/V valve label during the next revision of the Phase I EVR and standing loss control EOs.

Should you have any questions or concerns regarding this letter, please contact Pat Bennett at (916) 322-8959 or via by email at [pbennett@arb.ca.gov](mailto:pbennett@arb.ca.gov).

Sincerely,

Alberto Ayala, Ph.D., M.S.E.  
Chief, Monitoring and Laboratory Division
